SERIOUS SMASH-UP IN NEW YORK SUBWAY TUNNEL

New York, Sept. 29.—One of the most serious accidents in the history of the New York subway system occurred early today when two trains collided underneath 142d st., the Bronx.

Three men received injuries which are expected to prove fatal. The trains took fire and, in fighting the flames, 20 firemen were overcome by the dense smoke which choked the tunnel. 100 passengers on a train following those which collided were thrown into a panic and fought the guards until the doors were opened. They then walked seven blocks back through the smoke-filled tunnel.

The injured men are all subway employees. They were removed to the Fordham Hospital. There it was stated that they had a small chance for recovery.

GREAT SPORT!

By Jim Manee.

The roller skating craze, by goash,
Has hit the town ker-smack.
The roller skating craze is one
Of sports that can come back.
The study of astronomy
The skating pleasure mars.
Because a slip will likely mean
That you will see some stars.

P. S.—“Hey! Who took the oil can?
My skates are dried up.”

TODAY'S HEALTHOGRAM

The “sick” headache is so known because of the constant nausea or sickness at the stomach which attends the pain in the head.

There is a clammy, unpleasant taste in the mouth, an offensive breath, and the tongue is covered with a yellowish-white fur.

Any gentle emetic that will induce free vomiting without straining or retching will start relief on the way. A sponge bath with tepid water followed by a vigorous massaging of the spine will induce sleep, and if the stomach is given a good rest and then fed carefully the attack will not return.

WEATHER FORECAST
